Subject Index

Aconiti Tuber, 25
  acute toxicity, 26, 28
  effect on:
    hemodynamic measurements, 29
    renal functions, 29, 31
    serum clinical chemistry, 29
  preparation of, 26
  use as cardiotonic agent, 32
Akasha, 182
anticonception effect of yuehchukene, 1
anti-hepatotoxic effect of
  Bupleurum radix, 105, 113
  Echinops Grijisii, 113
  E. Latifolius, 113
appetite,
  effect of yomeishu on, 54
ATP-release
  moxibustion effect on, 80

Bupleurum chinense DC
  effects on:
    pathological changes of liver, 109, 119
    serum glutamic oxaloacetic transaminase, 107, 115
    serum glutamic pyruvic transaminase, 107, 115
    total bilirubin, 107, 115
    total cholesterol, 107, 115
    total protein, 107, 115
  hepatoprotective effect of, 109
  method of preparation, 106
Bupleurum falcatum L. var. *komarowi Koso Polj.*
  effect on:
    pathological changes of liver, 109
    serum glutamic oxaloacetic transaminase, 107
    serum glutamic pyurvic transaminase, 107
    total bilirubin, 107
    total cholesterol, 107
    total protein, 107
  hepatoprotective effect of, 109
  method of preparation, 106.
Bupleurum Kaoi Liu, Chao et Chuang
  effects on:
    pathological changes of liver, 109
    serum glutamic oxaloacetic transaminase, 107
    serum glutamic pyruvic transaminase, 107
    total bilirubin, 107
    total cholesterol, 107
    total protein, 107
  hepatoprotective effect of, 37, 109
  method of preparation, 106
Bupleurum radix
  anti-hepatotoxic effect of, 105

cardiotonic agent,
  Aconiti tuber as a, 32
cardiovascular disease,
  treatment of with Dan Shen, 19

charm,
for longevity-prosperity, 89, 92
for avoiding five poisons, 94
chhi, 182
Chinese charms, 88
Chinese charms in the light of cosmogony, 87
Chinese cosmology,
eight elements, 183
Chinese cosmology-cum-humorology, 182
chromium and glucose tolerance factor, 132
chronic obstructive pulmonary disease, treatment with Qing-Fei-Tang, 5
coagulative activity,
moxibustion effect on, 80
coldness in extremities,
effect of yomieshu on, 54
colony forming units in bone marrow,
effect of *Ganoderma lucidum* on, 63
conception rate of Yuehchukene, 2
cosmic elements, 88
cosmic qualities, 88
cosmogony,
symbol of, 91

Danshen
effect on myocardial function and coronary flow, 20
effect on left ventricular pressure, 21, 23
in treatment of cardiovascular diseases, 19
mechanism of action, 24
wash-out rate of,. 21
Dervish, 186
Diabetes mellitus,
elements influence upon, 131
treatment with:
arsenic, 132
calcium, 132
chromium, 132
lithium,133
magnesium, 134
manganese, 134
phosphorus, 132
potassium, 134
zinc, 135

Echinops grijisii Hance
effects on:
pathological changes of liver, 119
serum glutamic oxaloacetic transaminase, 115
serum glutamic pyruvic transaminse, 115
total bilirubin, 115
total cholesterol, 115
total protein, 115
hepatoprotective effect of, 41, 119
E. latifolius Tausch
effects on:
pathological changes of liver, 119
serum glutamic oxaloacetic transaminase, 115
serum glutamic pyruvic transaminase, 115
total bilirubin, 115
total cholesterol, 115
total protein, 115
hepatoprotective effect of, 119
eight elements of Chinese cosmology, 183
elemental composition of human pancreas, 138
endothelin,
structures of, 140

fatigue,
effect of yomeishu on, 54
fibrinogen level
moxibustion effect on, 82, 84
fibrinolytic activity
moxibustion effect on, 83

Ganoderma Lucidum (Leyss, ex. Fr.) Karst, 61, 175
effects on:
colony forming units in bone marrow, 63, 68
erythrocyte count, 65
leukocyte count, 64, 67
platelet aggregation in hemophiliacs, 177
survival fraction, 66, 68
thrombocyte count, 65, 67
x-ray irradiation, 67
efficacy of, 61, 175
mechanism of action, 178
preparation of extracts, 62, 176
radioprotective effect of, 61
Gong, 95

hepatic toxicity,
Bupleurum radix effects on, 105
hepatitis
medicinal plants used to treat, 35
hepatoprotective effect of
Bupleurum radix, 105
Lou-lu, 113
Pei-chai-hu, 113
San-fang-feng, 113
Hindu Trinity, (Trai-Linga-Ishwara), 188
HIV-positive hemophiliacs
effect of *Ganoderma lucidum* upon, 175
hypoglycaemic effect of:
manganese, 134,
zinc, 135
hypotensive effect of *Salvia miltiorrhiza*
effect of autonomic ganglion, alpha- and beta-adrenergic, cholinergic and histaminergic blocks upon , 160
effect of captopril upon, 161
mechamism of action, 164

Insanul-Kamil, 186
insomia
effect of Yomeishu on, 54

Jasad Bhasma
in treatment of diabetes mellitus, 135

Keishibukuryogan
effect on:
endothelin-1 level, 143
estradiol-17β, 150, 153
ovarian steroidogenesis, 149
progesterone, 151, 154
testosterone, 152, 155
Khat (catha edulis forsk.)
efficacy of, 71
Khatamines
dosage effect on triiodothyronine and thyroxine levels, 73
effects on plasma triiodothyronine and thyroxine levels, 71
time effect on triiodothyronine and thyroxine levels, 74
khat leaves chewers
symptoms of, 71, 75
Khirqa-posh-khirqa, 186
Kushta Hartal
elemental composition of, 136
in treatment of diabetes, 132, 136
Kushta-Poast-Baiza-E-Murgh
elemental composition of, 136
in treatment of diabetes, 132, 136

leukocyte counts
effects of *Ganoderma lucidum* on, 64, 67
Lou-lu
hepatoprotective effect of, 113

magnesium and diabetes, 134
manicuring art of keeping long nails, 197
medicinal plants
used to treat hepatitis, 35
Miyan, 186
Moxibustion, 77, 121
effects on:
ATP release, 80
blood coagulations, 80, 84
blood vessel reacion, 123
carbon localization, 127
cutaneous temperature, 84, 123
fibrinogen level and factor XIII activity, 82
fibrinolytic activity, 83
leukocyte diapedesis, 123
mast cell degranulation, 125
microvascular permeability, 123, 126
partial thromboplastin time, 82
phagocytic activiity, 84
plasminogen content and α_2-plasmin inhibitor activity, 82
platelet aggregation, 80, 83
prothrombin time, 82
thromboelastogram, 81
mechanism of action, 128

Nawajas
anti-diabetes activity, 136
elemental composition, 136
Nephrotic syndrome
treatment using Sairei-To, 45

Pa-kua, 184
Peer-i-Mughan, 186
Pei-chai-hu
hepatoprotective effect of, 113
plasminogen content
moxibustion effect on, 83
platelet aggregation in hemophiliacs,
effect of *Ganoderma ludicum* on, 177
platelet aggregation,
moxibustion effects on, 80
Potassium
effect on diabetes acidosis, 134

Qalandar, 186

Qi, 95
Qi-gong, 95
in treatment of mental and physical disorders, 95, 102
Qi-gong
effect on:
auditory brainstem evoked response, 97, 102
auditory evoked potentials, 97, 101
middle-latency response, 100
Qi-gong technique, 96
Qing-Fei-Tang,
effects on:
chemiluminescence of oxygen radical, 9, 16
mucociliary transport, 12, 17
phospholipid components of the sputa, 13, 15, 17
output volume, total fatty acid and saturated fatty acid content, 9, 11
ratio of saturated fatty acid to total fatty acid, 11
release of slow reacting substance—anaphylaxis, 9
sputa in bronchitic rabbits, 12, 17
tracheal mucociliary function, 15
use in treatment of chronic obstructive pulmonary disease, 5
Qute, 186

Radioprotective effect of
Gonaderma Lucidum, 61
Rama-Lingam, 189
Reno-cardiovascular effects of
Aconiti Tuber, 25

Rind, 186

Sairei-To (Chai-Ling-Tang), 45, 167
diuretic effect of, 173

effects on:
arteriolar diameters, 172
blood pressure, 169
glomerular sclerosis, 171
urinary protein, 47, 169
main components of, 50
use in treatment of relapsing nephrotic syndrome, 45
subtotal nephrectomy, 167
Salvia miltiorrhiza Bge. (Labiatae) 157
cell culture suspension preparation, 157
cell extraction method, 158
dosage response of hyprtensive effect, 160
Salvia miltiorrhiza cell culture extract,
autonomic ganglion, alpha- and beta- adrenergic, cholinergic and histaminergic blockers on the hypotensive effect of, 160
captopril on the hypotensive effect of, 161
effect on:
atrial rate, 164
contractile force, 165
sodium excretion, 163
urine excretion, 163
San-fang-feng
hepatoprotective effect of, 113
San-Pao, 88, 91
Selenium level in diabetic patients, 135
Shah, 186
Shamanism, 186
Shilajit
anti-diabetes activity, 136
elemental composition, 136
Shiva, 188, 191
Subtotal nephrectomy,
treatment with Sairei-To, 163
Sufi,
headdress and its significance, 185
Sufis,
the Maulanavi order, 186
Sufism, 185
Sunitang,
components of, 25, 33
use as cardiotonic agent, 25
survival fraction
effect of *Ganoderma lucidum* on, 66, 68

Tan-shen, *Salvia miltiorrhiza* Bge (Lablatae), 157
Thai-chi, 183
Thrombocyte count,
effect of *Ganoderma lucidum* on, 65, 67
Tokishakuyakusan
effect on:
endothelin-1 level, 143
estradiol-17β, 150, 153
ovarian steroidogenesis, 149
progesterone, 151, 154
testosterone, 152, 155
Trai-Linga-Ishwara, 188
Transcendental meditation
effect on autonomic functions, 102
Tridosha doctrine, 181
Trivang Bhasma
anti-diabetes activity, 136
elemental composition, 136

Wu-Hshing, 182

Yashada Bhasma
anti-diabetes activity, 136
elemental composition, 136
Yin-Yang, 88, 182
Yin-Yang Wu-Hshing, 182
Yomeishu, 51
dosage as a health tonic, 53
effect on post-operative gynecological patients, 51
efficacies, 52, 53
ingredients of, 52
method of preparation, 52
Yuehchukene,
anticonceptive effect,1
conception rate, 2
litter size, 3
mechanism of anticonceptive action, 3

Zinc,
effect on:
diabetes mellitus, 135
insulin stability, 135
